2. I have stated the source from which ideas excerpts have been used in the article, both in the text as well as list of references. If no such references are given, that means that all ideas and text is my original works.
3. The submitted article has not been published or submitted for publication elsewhere.
4. This is an electronically submitted through the email address of the author, and forms a part of the text submitted. Hence it does not carry the signature of the author.
5. I agree to have this declaration published with the article.

(Dr A. K. Pandey is the CEO of Pandey Education Trust, an education consultancy service and visiting faculty at ISBM, Gyan Vihar Universe, Jaipur. The author can be reached at edutrust@rediffmail.com)

One must understand it clearly that no one is going to give us our desired result in a plate as we should not feel ourselves special. One has to arrange his own plate by his own efforts. The conditions which you are facing have not been specially created for you but everyone whoever wanted to have success in the way you are trying, encountered these adverse and uncomfortable situations. They tried and tried till they made these unfavourable circumstances favourable for themselves.

The animals that are small give birth to a lot number of off springs only to make their race to continue on this earth. They know that all the conditions are unfavourable to them and they will not be able to survive if they fail to produce in large numbers. It is the question of continuation of their race. If they can save themselves of being extinct, you

being the best product of the Almighty, why can't learn a lesson from it producing a number of solutions of a particular problem and then choosing the best alternative? If not, then you should not kill your time for exceptional result as you don't deserve anything except a mediocre result.

Conditions whether favourable or unfavourable had been always there and will always be there but from that only you will find number of examples who were successful in writing their own success story. It was only their desire of not to be deceived by any unfavourable condition. It was not that they wished and they become but they acted to turn all these unfavourable forces favourable in their favour. Their desires were so fierce that even these unfavourable forces become fearful to come in their way. You are not less than them but only thing which is lacking with you is your desire. Have that and get the result irrespective of the adverse forces prohibiting you to achieve what you want to achieve. It is only your desire which makes all the differences. Honest desire is the key to success. There are known and unknown in this world but there is always a door in between the two. As fast you are able to search the door so fast you will be reaching to your door.

Weak people are afraid of unfavourable circumstances as they do not feel themselves strong enough to face them but for strong people whether the condition is favourable or unfavourable, it does not make a difference. Have you not seen the boats going in Ganga against the current? They go as they have to reach a fixed destination. The only difference is that if the current is favourable they will take less time to reach at their destination and if it is against, they will take slightly more time to reach at the destination. The boat men know their destination and take it as a challenge and are always winner. If they can, why don't you? Have the desire and fire of crossing the unfavourable circumstances.

Getting something big when everything is favourable may not give you the satisfaction which you get in achieving a little smaller thing under unfavourable circumstances. It is desired level of effort which gives satisfaction than the target being easy or difficult. Something which is easy to you may be difficult for someone else and vice versa but the conditions will always remain same for everyone and any point of time. The difficulties which Sir Edmund Hillary encountered in climbing Mt. Everest will be same for anyone whoever wants to reach at Mt. Everest. The difference lies in the desire only.

You have enough potential to achieve what you want to achieve and no one is stronger than you. The difference lies in evaluating the worth. You may not have evaluated your worth correctly which may be due to your ignorance only. Make sure that your creator that is the Almighty is always with you. This Almighty may not be any God but it is your faith in yourself. It does not make you superstitious but it makes you stronger to face the challenges of life and stops you of doing something wrong or something which is not acceptable in the society but He is always with you.

One night a man had a dream. He dreamt he was walking along the beach with God. Across the sky flashed scenes from his life. For each scene, he noticed two sets of footprints in the sand; one belonging to him and the other to God.

When the last scene of his life flashed before him he looked back at the footprints in the sand. He noticed that many times along the path of his life there were only one set of footprints. He also noticed that it happened at the very lowest and saddest time in his life.

This really bothered him, and he questioned God about it. "Lord, you said that once I decided to follow you, you did walk with me all the way. But I have noticed that during the most troublesome times in my life, there are only one set of footprints. I do not understand why, when I needed you most, you would leave me."

God replied, "My precious, precious child, I love you and I would never leave you. During your times of trial and suffering, when you see only one set of footprints, it was then that I carried you."

Faith is your greatest friend. It will never ditch you and will always act for your progress as it is your own creation. This faith may be anyone according to your belief and you should not let your faith shaken as it will lead to your destiny. Allow your faith to take deep root within you. As deep your faith will go inside you so stronger you will be as it will always guide you to achieve what you want to achieve. It will be a force in your favour to fight with the adverse forces coming in your way. It will provide you balance support whenever you need that.

Changing faith at regular intervals makes you weaker and becomes extinct in due course of time. It happens due to your weak mental health. A mentally weak person can't have permanent faith in anything as he is always doubtful about his own worth. Be strong and let grow your faith stronger in order to achieve something in life. You may feel that you have done all preliminary exercises to achieve your goal and you are proceeding with proper planning but still an honest faith in your goal will make your path easier to reach to your destination. It is the faith which propels you towards your goal and not your worth. Everyone on this earth has worth may be slightly less or slightly more but it is your faith which makes all the difference. You can't take chance with your success as you may not get another chance to achieve the same.

The king of lion one day conveyed the meeting of all the animals of the jungle and said to them, "I kill you for my food but before I run after you to kill and you run to save yourself. I don't want to trouble you before death as I am also answerable to the God". He further added, "It will be better that one of you come daily as my food and we both will be saved from this running torture." All the animals looked at each other and having left with no alternative, they agreed. The process continued and after some day the turn of a dog came. He went to the den of the lion and reported his arrival. The lion asked him to sit in the corner as he was busy in morning exercise. Suddenly, the dog heard a loud voice and came running and saw the lion on the ground unable to stand

up. It happened as the lion was no loner running and his bones and muscles became weak and during the exercise due to bending of a bone, he fell down on the ground. The dog was unable to understand what to do and seeing no alternative run to report the same to other animals in the jungle. All animals seeing the lion on the ground waited for a fraction of seconds, pounced on the lion and killed him.

Every individual on this earth has got his own characteristics and so is the lion. The animals pounced on the lion as they knew the weak area of the lion that he can't chase them any more which is the inherit characteristics of the lion. The lion exhibited his weak points to his enemies and faced the music. You should not forget that at the time of his death also the lion was the lion. The thing which was not there was his natural character and exhibition of the weak area of his personality. Should he had not shown his weak area to his enemies, chances were there of his survival. He should have easily done that but being the strongest he did not foresee its effect.

You will not find any one on the earth without some weak areas in his personality but someone exhibit it publicly and about someone even the near and dear one does not know up to the last moment. As you move higher up you must be particular of this as when people will not get your favour due to your position they may try to get the same by getting to know your weak areas. Everyone wants to supersede other and for that everyone wants to know the weak areas of his opponent. There is nothing new in this and it is going on since ages and the successful people are also there on this earth since ages. Both go side by side and those who save themselves of exhibiting their weak areas publicly get a name under the heading of successful people.

Individual personality has its own importance but the most important is its integrity. The lion was having a strong individual personality but his integrity was lost as he failed to maintain the integrity of his personality. Individualistic differences will always be there till the earth is there but let the people guess the difference you have. Why should you tell and exhibit your individual differences publicly? By doing so chances to gain something is remote but chances to loose much is at threshold. It happens as people got to know you completely and they make their plan accordingly. It would not have been possible without your help. Once it happens, you blame everyone except yourself whereas the only individual who has to be blamed is only you and none else.
